

COVID SAFE PLAN

Our Commitment

**We are committed to delivering COVIDSafe events.
Our priority is the welfare, health and safety of our guests, staff, hirers,
athletes, performers and all who interact and engage with us.**

We Achieve This By

Requiring all guests, staff and hirers to show proof of vaccination when attending the Precinct.

Providing accessible QR codes and requiring all guests, staff and hirers to check-in.

Communicating COVIDSafe practices and requirements to our guests, staff and hirers in a clear and timely manner.

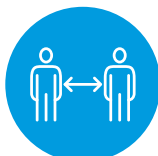

Regularly reviewing M&OP's COVIDSafe operating principles.

Engaging with Government agencies to ensure compliance at every step.

Ensuring we have the right resources available to provide a COVIDSafe environment for guests, staff and hirers.

Providing guest and public spaces that prioritize safety and comfort.

Promoting safety as the most important part of any activity.

Measuring and reporting on our objectives to control risk.

How We Support Our Partners

Consistently engaging with venue hirers, business partners, staff and guests.

Ensuring communications are clear and timely and all partners have the information they need.

Leading engagement with Government departments to understand requirements and ensure compliance at every step.

To provide a COVIDSafe venue, M&OP will implement:

COVIDSafe principles embedded into all business operations.

COVIDSafe officers in venues and workspaces who can assist guests, team members, hirers and contractors.

COVIDSafe cleaning and hygiene standards across venues and workspaces.

Technology to provide a COVIDSafe environment for guests and staff including digital tickets and cashless retail.

COVID  SAFE

Staff, hirers, contractors and guests help M&OP achieve a COVIDSafe venue by:

Not coming to the Precinct if they are unwell.

Understanding their requirements to meet COVIDSafe principles and following the instructions of COVIDSafe officers.

Communicating relevant information to their parties and work-groups.

Checking-in using the QR codes and providing their proof of vaccination.
